VISION STATEMENT

In Alexandria, students come first. Every student learns and is supported to achieve individual successes throughout the student's school year. Our schools create an atmosphere that encourages the joy of learning and promotes positive citizenship. The students, staff, parents, and community of Alexandria work together to help each child build a solid foundation of essential, critical, and creative thinking skills.

Corporation Policies and Procedures

PARENT TO SCHOOL COMMUNICATION PROCESS

We believe that our Alexandria families and schools are important and necessary partners in the education of each student. We encourage open lines of communication between the student's parents/guardians and the school.

Regretfully, problems or concerns do develop within the educational arena. Parents/Guardians are encouraged to work first with teachers, and then building level administrators, and finally the superintendent, giving each level ample time to assess, take action and hopefully resolve the concern at their level. Our hopes are to resolve the issues as early in the process as possible to insure quick and responsive attention to the educational issues. If the problem or concern cannot be resolved by using the teachers, administrators or superintendent, then the parent may choose to call members of our school board.

SCHOOL CALENDAR AND CLOSING POLICY

The School Calendar will be distributed on the first day of school and is located on the school's website at <http://alexandriacsc.alex.k12.in.us>. The school calendar is subject to revision as required by unanticipated circumstances.

We will use our School Messenger automated phone system to notify parents in the event of school closings or delays. Therefore, it is very important that students and parents keep the school advised of any changes to your telephone numbers throughout the school year. Local radio and television stations are another excellent source of information in case of school delays and/or closings. Please do not call the superintendent or building principals as you may tie up their telephones and prevent the proper notification to radio stations, bus drivers, and other personnel. Early morning closing announcements will be made as soon as possible. Radio and television stations will also be notified of unscheduled closing necessitated during the regular school day. **Parents who are not at home during the regular school day for such emergency situations should have prearranged plans.** Your children should have some place to go in case of an emergency or early closing of schools.

Students' instructional days will be rescheduled when necessary to meet the minimum required by Indiana Code. The school board shall determine when lost student instructional days shall be rescheduled. The last day of school and graduation are tentative and subject to change.

SCHOOL DIRECTORY

The Personnel School Directory is located on the school corporation's website at: <http://alexandriacsc.alex.k12.in.us>

VIDEO SURVEILLANCE

The Board of School Trustees authorizes the use of school video surveillance on corporation property to assist in protecting the health, welfare, and safety of all students, staff, and visitors. Video cameras may be used in locations deemed appropriate by the superintendent or his/her designee. Recorded information from surveillance cameras showing identifiable students will be treated as an "education record" and will not be produced outside of the corporation except pursuant to subpoena, court order, or release in accordance with the Family Educational Rights and Privacy Act.

NONDISCRIMINATION POLICY

Alexandria Community School Corporation does not discriminate on the basis of religion, race, genetic information, color, national origin, sex, disability, or age in its programs and activities, including employment and opportunities. Any inquiries concerning non-compliance should be directed to the superintendent of schools at 202 E Washington Street, Alexandria, IN 46001 or (765) 724-4496.

FREE/REDUCED MEAL –TEXTBOOK ASSISTANCE PROGRAM

SCHOOL FEES

Fees that are unpaid after the conclusion of the first grading period may be turned over to the school attorney or other authorized persons for collection. Court costs and/or collection fees may be added if necessary. Parents who are unable to pay the fees by the due date should make prior arrangements to pay on an installment plan. Payments of this kind must be set up with the principal or his/her designee.

Parents of students who have been approved for free lunches (based on federal/state guidelines) will receive free workbooks and textbook rentals ONLY, provided that the appropriate applications are completed. Parents are responsible for all fees other than workbooks and/or textbook rentals.

Students who transfer into our corporation must pay an amount of student fees based on the time of their enrollment. They will also be responsible for the full cost of any required consumable workbooks or materials.

Students who withdraw from school to enroll in another school corporation will receive a refund of the unused fees based on the percentage of time they were enrolled in our corporation.

APPROPRIATE GRADE PLACEMENT POLICY: HOME SCHOOLED or NON-ACCREDITED SCHOOL CHILDREN ENTERING OR RE-ENTERING THE CORPORATION

The Alexandria Community School Corporation has both the right and responsibility to assess the academic status of the child initially entering or re-entering the school corporation. This is done in order to make a determination of the student's placement in the school corporation's program that can most likely assure the proper continuation of the student's educational growth. School officials shall place students in the most appropriate grade level if the student is requesting enrollment in the Alexandria Community School Corporation after attending a nonpublic, non-accredited, and/or home school.

This policy will also apply to students who enter our corporation from another accredited school, but who may have been placed, in the opinion of school personnel, at an inappropriate grade level based on their age or academic ability.

WORK PERMITS

Indiana law permits the employment of minors beginning at the age of 14. Prior to employment, an employer must have an employment certificate on file for the student. The certificates (commonly referred to as "work permits") are available to the student through the school's issuing officer. For Alexandria-Monroe High School, the issuing office will be the school social worker.

The issuing officer may deny a work permit to a minor: whose attendance is not in good standing, as determined by the school; or whose academic performance does not meet the school's standards. The issuing officer may also revoke a work permit previously issued to a minor if the school determines that there has been a significant decrease in any of the following since the issuance of the work permit:

the minor's grade point average, or the minor's attendance at school. Alexandria-Monroe High School will consider a student to be in poor academic standing if they fail to pass 5 courses per grading period. The school will consider a student to be in poor attendance if they are not present or absent with a valid excuse 95% of the previous grading period. A student may appeal denial or revocation of a work permit to the building principal. If a student's work permit is revoked, they may request a periodic review of their status at the end of the next grading period.

PARKING PERMITS

Alexandria-Monroe High School requires that all student vehicles be registered with the school office. Students are to purchase a parking permit from the office, prior to driving their vehicle to school. Permits are to be displayed in the front window of the student's vehicle at all times. This is a student/staff safety issue. Failure to follow this policy can and will lead to suspension and loss of driving privileges for the semester or year. Student parking is restricted to the east parking lot. The school may also designate specific stalls or areas in the parking lot for specific student or groups of students.

Parking permits may be revoked (without reimbursement) if a student is labeled as chronically tardy or excessively absent. A student will be labeled chronically tardy if they are tardy more than 3 times per grading period. Upon receiving the 3rd tardy to school, the parking permit must be forfeited to the school administration. If the student completes a future grading period without receiving 3 tardies, they may request that their parking permit be reinstated.

Students who purchase a parking permit must also sign up to participate in the school's random drug-testing program.

PROMOTION, PLACEMENT, AND RETENTION (7th & 8th Grade)

The school board recognizes that the personal, social, physical, and educational growth of children will vary and that they should be placed in the educational setting most appropriate to their needs at the various stages of their growth.

It shall be the policy of the Board that each student be moved forward in a continuous pattern of achievement and growth that is in harmony with their own development.

Such patterns should coincide with the system of grade levels established by this Board and the instructional objectives established for each.

Our purpose for establishing the following guidelines is to help ensure that all students succeed. The decision to promote or retain a student will be based on the following conditions.

- A. The student will maintain at least a 95% attendance rate in accordance with Indiana State law.
- B. The student passes both sections of ISTEP
- C. The student shows gains on corporation/building adopted benchmark tests
- D. The student maintains passing grades for each semester.

Each Principal or designee will convene a committee to identify those students experiencing difficulty in successfully achieving any of the above conditions. The Principal or designee will contact the student's parents/guardian in order to work with the committee to develop a plan for academic success and promotion to the next grade.

The committee will determine if the student has successfully completed the necessary requirements to be moved forward to the next grade. If the recommendation is unclear, the matter will be determined by the building principal.

No student who has completed a grade successfully shall be retained or allowed to repeat a grade in order to improve the student's ability or lengthen the student's eligibility to participate in extra-curricular athletic programs.

A student enrolled in special education shall be promoted or retained based on the opinion of the Case Conference and the student's I.E.P.

- A. If it is possible to report to school before the appointment, if even for only a short time, you should do so.
- B. A phone call from home MUST be made to the office before the student is to leave school early.
- C. After receiving the phone call the office will issue a pass for the student to be dismissed at the appropriate time. It is the student's responsibility to be certain that they are aware of assignments before leaving school.
- D. If the student is to ride with someone other than their parents or guardian, it must be indicated during the phone call.
- E. If the reason for early release is to visit a doctor or dentist, a statement from that doctor's office should be provided to verify the visit.
- F. Students are not to leave school without permission. Any student who does leave without permission will be considered truant and will be penalized accordingly. This will include revocation of the student's driving privilege for the remainder of the school year.

MAKE-UP WORK POLICY

It is the student's responsibility to contact their teacher(s) to arrange for the make-up of all missed work. Student will be allowed to complete all school work assigned or completed during an absence from school. Students will be allowed one day to complete their make-up work for each day of the absence.

Students and parents are also encouraged to access the school's Harmony student management system to obtain assignments and check student progress. Login and password information will be available at registration and from the attendance office.

ARRIVING AND DISMISSAL FROM SCHOOL BUILDINGS OR GROUNDS

Students may not enter the school building prior to 7:45 a.m. and must leave the buildings within 15 minutes of dismissal unless supervised by a coach, teacher or sponsor of an approved activity.

Students are not allowed to leave the building or grounds without permission once they enter the building. In order for a student to be dismissed from school, parents must contact the attendance office by phone or provide a written note. Notes may be verified before a student is released. All students must sign out in the attendance office. Any student who leaves without permission or does not properly sign out will be considered truant.

TRUANCY POLICY

Alexandria Community School Corporation defines truancy as the “willful refusal to attend school in defiance of parental authority.” Therefore, any absence without the knowledge and approval of the parent will be considered as truancy. Each day or part of a day that a student is absent without the knowledge and consent of the parent will be considered as truancy. After the first truancy, the parent will be notified of consequences of future trancies, and the student will be assigned to three days of In-School Detention. After the second truancy the student will be placed in In-School Detention for five school days, and notification to juvenile probation will be initiated. A parent conference will be afforded and the parent will be notified of consequences of a future truancy. A student will be classified as a habitual truant at the third truancy, and a recommendation for expulsion will be made to the superintendent of schools. After a hearing officer has been appointed, a due process hearing has been afforded, and the expulsion request affirmed, the Indiana Bureau of Motor Vehicles will be notified that the student has been expelled or classified as a habitual truant.

OUT OF AREA

Any student outside of their assigned area without a pass shall be deemed truant and will be subject to truancy consequences.

SEMESTER GRADES

Semester grades are calculated by the classroom teacher/supervisor using letter grades and averaged to determine the semester grade.

CLASS RANK

Class rank is compiled after the end of each semester. The class rank is computed on the basis of grades in the full credit subjects and the number of subjects carried. The cumulative grade points are added with the total divided by the number of subjects taken computed to the nearest one thousandth. The number of classes taken may have an effect on the student's grade point average.

VALEDICTORIAN AND SALUATORIAN REQUIREMENTS

Any student who wishes to be considered for the Valedictorian/Salutatorian of their class must complete the following criteria during their high school career:

1. Complete Indiana Academic Honor's Diploma Requirements including 1200 combined math and verbal on the SAT, or a 26 composite on the ACT, and completing 2 AP or dual credit classes as well as grade and coursework requirements.
- or**
2. If a student doesn't score a 1200 on the math and verbal SAT or 26 on the ACT, they must complete 1 additional AP class. Alexandria-Monroe high school offers 7 Advanced Placement classes. In total the student must complete 3 out of 7 AP or dual credit classes offered while in high school. In addition, students in category 1 or 2 must complete the following:
3. The student must complete either the fourth year of a foreign language, a fourth year of science or enroll in AP Calculus.

COLLEGE AND UNIVERSITY DUAL CREDIT COURSE

The Board will allow students in grades 11 and 12 who meet the criteria, to enroll in approved postsecondary programs while in attendance in the Corporation. Students will be eligible to receive dual credit or be provided dual enrollment programs that meet the educational objectives of the School Corporation by the State educational institutions as defined in I.C. 20-12-0.5-1.

No student may participate, however, without the written consent of the high school principal or if such participation would delay his/her graduation from high school. The cost of transportation and /or enrollment in a postsecondary institution is the responsibility of the student and/or their parent/ guardian.

Student must maintain a 3.0 GPA to participate in the dual credit course. The postsecondary instructor will work directly with the principal or his/her designee in determining if the course(s) fulfill the requirements of the school's established curriculum. A student must gain the approval of the high school principal prior to enrolling in a post secondary course. The school has the right to deny the transfer of College/University credit if a course is not approved of by the high school principal, or if the course's content and/or rigor are not sufficiently demonstrated to school officials.

The principal will determine if the scheduling and/or course description of university/college classes may conflict with the student's regular attendance and/or may not qualify for dual credit.

EARLY GRADUATION:

Students may be eligible for completing their education after the first semester of their senior year at Alexandria-Monroe High School if the following requirements are:

Completion of forty seven (47) credits in total from grades 9, 10, 11, & 12.

Eight credits in English.

Attend high school for seven terms (summer school *is not* included).

If you are working toward an Honors Diploma, you will need 47 credits in specified coursework.

If the student anticipates that the requirements will be met by the end of the student's first semester of their senior year, the student's parent/ guardian must contact the high school principal indicating their approval for their student's participation in the process. It is preferred that the student gain approval from the building principal no later than January of their junior year. No diplomas will be issued until the official graduation date for their class. You are eligible to participate in commencement exercises. **By seeking approval, the student and parent/guardian accept responsibility for meeting all senior activity deadlines and completing the aforementioned requirements. Students with special needs can graduate early if the case conference committee determines it is in the student's best interest.**

CREDIT RECOVERY – AVAILABLE TO JUNIORS AND SENIORS ONLY

Students who are assigned credit recovery shall have until the first Friday of December and May to complete that semester's online coursework. Seniors who do not meet the May deadline for required online course work will not walk in the graduation ceremony. The principal can grant special permission for extenuating circumstances.

HOMEWORK POLICY:

Good schools and students are not products of teachers, school administrators, or school board members alone, but are representative of the entire community. Parents/ guardians and teachers should be partners in the education of their students. The assigning and monitoring of a student's homework provides an excellent opportunity to strengthen this educational partnership. This premise serves as the basis for the adopted rule requiring all school corporations to have a written homework policy.

Homework should fulfill the following purposes or objectives:

- A. To review, reinforce, or extend classroom learning.
- B. To teach students responsibility and organization.
- C. To promote the wise and orderly use of time.
- D. To encourage opportunities for educational enrichment.
- E. Never be used as a punitive measure.

Each student has the responsibility to develop good work and study habits. The student should:

- A. Clarify with the teacher any questions pertaining to the teacher's instructions before leaving class...its purpose, when it is due, and how it should be done.
- B. Take home any material and information needed to complete the assignment.
- C. Learn to budget their time as to accomplish their assigned work.
- D. Analyze their study habits and take advantage of available study help.
- E. With the aid of their parents:
 - 1. Set aside a special time in which to do the assignment.
 - 2. Find a place to do their work free from distraction.
 - 3. Organize their time so assignments can be completed in a reasonable length of time.
 - 4. Check the assignments for completion.
- F. Return all completed work to the teacher by the date requested.
- G. Make up all work missed due to absence from class

HOMEWORK RECOVERY

Failure to complete homework in a timely manner will result in the following:

-Any student who has 3 or more missing assignments in any given class will be assigned to a Tiger's Den Homework Recovery area until said assignments are completed. This would restrict that student from attending extra curricular Tiger's Den meetings.

-If a student is assigned to a Tiger's Den Homework Recovery area more than once then they can be assigned to that Tiger's Den Homework Recovery permanently. A key factor in the effectiveness of a homework policy is home-school communications.

- Satisfy any other state and local graduation requirements.
- Get a written recommendation from the teacher(s) in the subject area(s) not passed, as well as one from the school principal, and show proof that the academic standards have been met, whether through other tests or classroom work.

Mathematics Requirements

The State Board set the expectation that all students earning a diploma (i.e., any student except for a certificate of completion student) have access to completing *Algebra I* by the end of their freshman year. To support this, *Pre-Algebra* is no longer a high school course and has been replaced by *Algebra Enrichment*. The main difference between the courses is that *Algebra Enrichment* must be offered during the same academic year as *Algebra I*.

Students earning a Core 40 Diploma, Core 40 with Academic Honors, or Core 40 with Technical Honors must earn six (6) credits in Mathematics in Grades 9-12.

Quantitative Reasoning Courses

The State Board created a new category of courses called “Quantitative Reasoning” courses. These are existing courses that help advance a student’s ability to apply mathematics in real-world situations and contexts. A proposed list of these courses can be found on the second page of the State Board memo.

General diploma students will be required to earn two (2) credits in a Mathematics course **or** a Quantitative Reasoning course during their junior or senior year.

Core 40, Academic Honors, and Technical Honors students will be required to be enrolled in a Mathematics course **or** a Quantitative Reasoning course each year they are in high school.

Core 40 with Academic Honors Diploma

If a student chooses to use the SAT option to fulfill the Academic Honors requirements, the score must include the written section of the test. A student must achieve a composite score of 1750 and no less the 530 on each section. If a student chooses to use the ACT option to fulfill the Academic Honors requirements, the student must complete the written portion of the ACT.

Core 40 with Technical Honors Diploma

To be eligible for a Technical Honors diploma, a student must earn six (6) credits in a college and career pathway. This replaces the previous requirement of eight to ten (8-10) credits in a career-technical program. The additional requirements now mirror the Academic Honors requirements but include options for fulfilling the Technical Honors diploma. In addition to earning a minimum score on WorkKeys, a student now has the option of demonstrating proficiency by (1) earning a minimum score on Accuplacer; or (2) earning a minimum score on Compass.

Dual Credit

Courses counting as "dual credit" under the Academic Honors or Technical Honors diplomas must be *verifiable* and from the Priority Course list set forth by the Commission for Higher Education.

Verifiable means a school must receive notification from a postsecondary institution that the student has been awarded college credit for that course.

There are two subsections that comprise the Priority Course list: (1) Liberal Arts and (2) Career and Technical Education. Both lists are in the final stages of development. Once available, these lists will be made available the Commission for Higher Education website (www.che.in.gov) and on the Learning Connection in the Dual Credit Community.

Language was also added recommending the use of a provider for courses taught in the high school by high school faculty from the Preferred Provider List as developed by the Commission. This list will be available after the December, 2011 Commission meeting.

PHYSICAL EDUCATION REQUIREMENT

PE is a required course in the state of Indiana. A student needs 2 credits of PE in order to graduate. Students are expected to dress for PE everyday so failure to do so is a form of insubordination and limits their ability to participate in PE. Clothing is available to all students if needed through the PE department. After 3 incidences of a student refusing to dress, they will fail the class and be assigned an online academic class in the alternative school and be required to retake that PE class the next semester.

ALTERNATIVE PHYSICAL EDUCATION CREDIT

The Indiana State Board of Education has granted local school districts the flexibility of awarding students Physical Education credit that demonstrates proficiency through alternative means. Students who demonstrate mastery of the Indiana Academic Standards for PE, as documented by a coach, sponsor, or director, may be eligible for alternative PE credit.

Program Requirements:

- Alternative PE Credits must be earned prior to a student's senior year.
- One PE credit will be awarded for a *complete* season at Alexandria-Monroe High School sponsored IHSAA sport, cheerleading, guard, and marching band. A total of 2 credits, earned over two complete seasons, can be earned at AMHS.
- A *complete* season is defined as **first practice to final event**. The student must remain on the active roster the entire season or the duration of the activity.
- The student will participate regularly in physical activity, demonstrated by participation in over 90% of group activities (injury free), or 66% due to major injury (AMHS athletic trainer or physician signature required).
- Disciplinary suspensions from the activity may result in forfeiture of credit as determined by the coach, director, or sponsor.
- Since credits will be earned based on mastery of the physical education standards, coaches, directors, and sponsors may choose to work with the student beyond the season until the standards are met.
- At the conclusion of the season or activity, the coach, director, or sponsor will submit a roster of eligible students to the guidance office.
- Once successful participation has been confirmed a credit will be placed on the student's transcript as a semester grade. A grade of A will be awarded to all students who meet the requirements for the alternative credit.

Beginning with the Fall of 2017, all students participating in an eligible program will be automatically considered in the evaluation and awarding of Alternative PE credit. Students and parents should make sure to carefully review the program requirements.

Students interested in receiving credit for the 2018-2019 school year should complete the "Physical Education Credit Contract" and see Mrs. Abernathy in the guidance office.

To receive credit for participation, forms must be submitted by:

CORPORATION DISCIPLINE POLICIES

STUDENT DISCIPLINE POLICY

A portion of the responsibility for the development and enforcement of regulations for the protection of the rights of individuals is delegated by the Board of School Trustees to responsible officials within the School Corporation. The purpose of discipline controls is to help create an atmosphere that promotes the best possible learning environment for all those involved in the educational process.

However, in the absence of self-discipline, the superintendent, principal, any administrative personnel, or any teacher of the School Corporation is authorized to take certain actions, reasonably necessary to help any student, to further school purposes, or to prevent an interference with the educational process.

Students must follow responsible directions of school personnel in all educational settings and refrain from disruptive behavior that interferes with the educational environment. This applies to a teacher or other school staff member who has students under their supervision. They may take any action that is necessary to carry out or to prevent an interference with an educational function that the person supervises.

A principal may take any action concerning the principal's school or a school activity within the principal's jurisdiction that is reasonably necessary to carry out or prevent interference with an educational function or school purpose, including the writing of regulations to govern student conduct. A superintendent or a member of the superintendent administrative staff may, with the superintendent's approval, take any action with respect to all schools within the superintendent's jurisdiction that is reasonably necessary to carry out or prevent interference with an educational function or school purposes.

The rules you are about to read in this code of conduct supplement are in addition to our broad, discretionary authority to maintain safety, order, and discipline within the school zone. These rules support, but do not limit, our authority.

SEARCH AND SEIZURE POLICY

As used in this section, "reasonable cause for a search" means circumstances that would cause a reasonable person to believe that the search of a particular person, place, or thing will lead to the discovery of:

1. Evidence of a violation of the student standards on conduct contained in the student handbook or state law.
 2. Anything because of its presence could present a danger of physical harm or illness to a person.
- The principal, or another member of the staff acting in his absence, may search the person of a student during a school activity if the principal or staff member has reasonable cause for a search of that student. Searches of the person of a student shall be limited to:

1. Searches of the pockets of the student. Searches of the person of a student that requires removal of clothing other than a coat, jacket, shoes, or socks, shall be referred to a law enforcement officer.
2. Searches of any object in the possession of the student such as a purse, bags, etc.
3. Lockers and contents. A student using a locker that is the property of a school corporation is presumed to have no expectations of privacy in that locker or its contents. A principal or other member of the administrative staff of the school may search locker and its contents at any time. Other than a general search of lockers of all students, any search conducted under this section shall be, where possible, conducted in the presence of the student who's assigned locker is the subject of the search
4. Students' cars are subject to search if there is reasonable suspicion that the car may contain illegal contraband, weapons, or illicit materials.
5. . A law enforcement agency may, at the request of the school principal, assist the school administration in searching lockers, vehicles and other areas/items on school property.

METAL DETECTOR SEARCH

Metal detectors may be used at schools and school-related functions of such schools on a random and periodic basis. If a student refuses to cooperate with the search, the staff member is to notify the administration. Students shall be subject to disciplinary actions.

SUSPENSION PROCEDURES

When a principal (or designee) determines that a student should be suspended, the following procedures will be followed:

- A. A meeting will be held prior to the suspension of any student. At this meeting the student will be entitled to the following:
 1. A written or oral statement of the charges,
 2. If the student denies the charges, a summary of the evidence against the student will be presented, and,
 3. The student will be provided an opportunity to explain his or her conduct.
- B. The meeting shall precede suspension of the student except where the nature of the misconduct requires immediate removal. In such situations, the meeting will follow the suspension as soon as reasonably possible following the date of the suspension.
- C. Following the suspension, the parents or guardians of suspended students will be notified in writing. The notification will include the dates of the suspension; describe the student's misconduct, and the action taken by the principal.

EXPULSION PROCEDURES

When a principal (or designee) recommends to the superintendent (or designee) that a student be expelled from school, the following procedures will be followed:

- A. The superintendent (or designee) may conduct an expulsion meeting, or may appoint one of the following persons to conduct the expulsion meeting as the expulsion examiner:
 1. Legal counsel,
 2. A member of the administrative staff who did not expel the student and was not involved in the events giving rise to the expulsion.
- B. An expulsion will not take place until the student and the student's parent are asked to appear at an expulsion meeting conducted by the superintendent or the person designated above. Failure by a student or a student's parent to appear at this meeting will be deemed a waiver of rights to contest the expulsion.
- C. The request to appear at the expulsion meeting will be in writing, delivered by certified mail, or by personal delivery, and contain the reasons for the expulsion and the date, time, place, and purpose of the meeting.
- D. At the expulsion meeting, the principal (or designee), will present evidence to support the charges against the student. The student or parent will have the opportunity to answer the charges against the student, and to present evidence to support the student's position.
- E. If an expulsion meeting is held, the designated hearing officer conducting the expulsion meeting will make a written summary of the evidence heard at the meeting, take any action found to be appropriate, and give notice of the action taken to the student and the student's parent.
- F. The decision of the expulsion examiner may be appealed through the appropriate Madison County court.

SUSPENDED OR EXPELLED STUDENTS

Students who have been suspended or expelled from school are prohibited on school property at any time during the period of suspension or expulsion. This includes, but is not limited to, any school-related functions, and/or extra-curricular activities including athletics. Students violating this policy may be considered as trespassing on school property and be subject to arrest and prosecution. Students who are expelled from school or suspended for a second time will be reported to the Department of Motor Vehicles.

At the parent's request assignments will be provided for students who have been suspended from school. Parents should contact the school to make arrangements to pick up assignments. Students who have been suspended may turn in any missed assignments for full credit, provided those assignments are turned in to the student's teachers the day they return to school.

GROUND FORS FOR SUSPENSION OR EXPULSION

A school principal (or designee) may deny a student the right to attend school or take part in any school function for a period of up to 10 days. A designated hearing officer may extend a suspension for a longer period of time pending a due process hearing for expulsion.

Grounds for suspension or expulsion include, but are not limited to:

- A. Any student who is found to be sexually harassing another person on school property, during regular school hours or at any after school related activity will be subject to suspension and/or due process for expulsion. Any reported allegation(s) including speech, writings/drawing, gestures or physical contact, will be fully investigated by school officials and discipline imposed, accordingly. Parents should feel free to report suspected acts of bullying to an appropriate school official. In addition, parents of students suspected of bullying will be notified with a phone call or through other appropriate means of correspondence. Students are discouraged from possessing electronic communication devices (ECD) such as digital assistants (PDAs), IPOD, MP3, electronic games, and other devices designed to receive and send an electronic signal or play and/or record video/audio material on school property and vehicles. All such devices must be turned off during the school day and are to be placed in a secure location.

The use of audio and/or video recording devices, including cameras, are not permitted inside any school building without the consent of the building principal.

Possession of a cell phone or other ECD by a student is a privilege, which may be forfeited by any student who fails to abide by the terms of this policy, or otherwise engages in misuse of this privilege.

Violations of this policy may result in disciplinary action and/or confiscation of the cell phone, ECD or recording device. The school administration may retain possession of the device until a parent or guardian comes to school to retrieve it. The building principal will also contact law enforcement if the violation involves an illegal activity.

The student who possesses a cell phone or ECD is responsible for its care. The school is not responsible for the theft, loss, damage, or vandalism of personal property.

Students may only have their cellphone out in the classroom with prior permission from the teacher. Parents/Guardians are advised that the best way to get in touch with their child during the school day is by calling the school office and leaving a message.

Consequences for violations of this policy:

1st violation: Confiscation of the cell phone and the parent or guardian must come pick it up.

2nd violation: Loss of cell phone privileges for the semester.

3rd violation: Loss of cell phone privileges for the year.

Any student violating the loss of cell phone privileges will be suspended.

NOTICE TO STUDENTS AND PARENTS REGARDING CELL PHONE CONTENT AND DISPLAY

The Child Abuse/Neglect Law requires school personnel to report to law enforcement or child protective services whenever there is reason to believe that any person/student is involved with "Child exploitation" or "child pornography" as defined by Indiana Criminal Statute.

It is "child exploitation", a Class D felony under I.C. 35-42-4-4(b), for any person/student (1) to exhibit, photograph or create a digitalized image of any incident that includes "sexual conduct" by a child under that age or 18; or (2) to disseminate, exhibit to another person, or offer to so disseminate or exhibit, matter that depicts or describes "sexual conduct" by a child under the age of 18.

It is "child pornography", a Class D felony under I.C.35-42-4-4(c), for any person/student to *possess* a photograph, motion picture, digitalized image, or any pictorial representation that depicts or describes "sexual conduct" by a child who the person knows is less than 16 years of age or who appears less than age 16.

"Sexual conduct" is defined by I.C. 35-42-4-4(a) to include sexual intercourse, exhibition of the uncovered genitals intended to satisfy or arouse the sexual desires of any person, or any fondling or touching of a child by another person or of another person by a child intended to arouse or satisfy the sexual desires of the child or other person.

The Indiana Sex Offender Registration Statute and I.C. 11-8-8-7 and the Sex Offender Registry Offense Statute at I.C. 35-42-4-11, as of May 2009, requires persons convicted of or adjudicated as a juvenile delinquent for violating the Child Exploitation Statute at I.C. 35-42-4-4(b) to register as a sex offender.

Because student cell phones have been found in a number of Indiana school districts to have contained evidence of "sexual conduct" as defined above, it is important for parents and students to be aware of the legal consequences should this occur in our school system.

COMPUTER ACCEPTABLE USE POLICY

Students utilizing Corporation-provided Internet and network access must first have the permission in writing of their parents and must be supervised by the Alexandria Community School Corporation's professional staff. Students utilizing school-provided Internet and network access are responsible for good behavior on-line just as they are in a classroom or other area of the school. The same general rules for behavior and communication apply.

The purpose of Corporation-provided Internet and network access is to facilitate communications in support of research and education. To remain eligible as users, students' use must be in support of and consistent with educational goals and objectives of the Alexandria Community School Corporation. Access is a privilege, not a right. Access entails responsibility.

Users agree that files stored on school-based computers and e-lockers will not be private. Electronic messages and files stored on school-based computers and e-lockers may be treated like student lockers. Administrators and faculty may review files and messages to maintain system integrity and ensure that users are acting responsibly.

The following uses of school-provided Internet access and network are not permitted:

- a. to copy software from or to the School's computer systems

- h. to access another individual's account, materials, information, or files without permission
- i. to violate copyright or otherwise use the intellectual property of another individual or organization without permission
- j. to attach any device to the network without approval

Any violation of these rules and/or Corporation policy may result in loss of your Corporation-provided Internet and/or network access. Additional disciplinary action may be determined at the building level in keeping with existing procedures and practices regarding inappropriate language and behavior. When and where applicable, law enforcement agencies may be involved.

2. Removal from computer access for a period of one semester.
3. Removal from computer access for a period of one year.
4. The administration reserves the right to exercise penalties to the fullest extent of the law anytime a student accesses the system without permission.

Removal means the student will not be allowed in a computer lab or near a computer in the library or other areas in the building. It also includes HIT removal and pass restriction for the same time period.

Hardware or network damages can lead to monetary charges for repair.

COMPUTER TAMPERING

It is a criminal act under Indiana law to access a computer system or to damage or alter a computer program or computer data without the consent of the computer owner. Therefore, any school personnel or student who is suspected of tampering with or trespassing on any of the school corporation's computers, computer programs, computer systems, or computer networks without authorization will be immediately suspended from employment or school pending investigation by school administrators. Suspected violators of this rule will be subjected to the staff and student disciplinary procedures. The results of the investigation will be turned over to the proper authorities if it is determined by school authorization that a criminal act may have been committed.

It further establishes a drug-free zone within 1000 feet of any facility used by the Corporation for educational purposes.

Proper use of medication by a student prescribed by a medical doctor, dentist, or other health care provider authorized by law to prescribe medication for that student, does not violate this policy. Improper use or possession of medication not prescribed for a student is a direct violation of this policy.

The administration shall have the authority to require a student to submit to a chemical test of the student's breath or urine if the administration has reasonable suspicion to believe the student, while at school, attending or traveling to and from a school related activity, is using or under the influence of alcohol, marijuana, or a controlled substance (as defined by law)

Reasonable suspicion may arise from the following:

At the request of parents, the principal will consider alternative to expulsion for first (1st) time offenders who are in possession of drugs, etc. and under the following conditions:

ALEXANDRIA COMMUNITY SCHOOLS DRUG EDUCATION AND TESTING PROGRAM

The Board of School Trustees of Alexandria Community Schools recognizes the health risks and dangers associated with the unlawful use of drugs and alcohol. Drug and alcohol use in the workplace is a threat to the safety and health of both our employees and our students. It jeopardizes the efficiency of our operations and the quality of our educational programs. The risks associated with such use may include the possibility of

impaired judgment, diminished capacity, deterioration of the organs of the body, addiction, the modification of behavior, death or other conditions which substantially inhibit a person from performing to their fullest natural ability.

Alcohol and drug abuse is a serious problem in today's society, and schools are not immune to such problems. It is statistically predictable and it is within our experience, that some students have used alcohol and/or have experimented with "street drugs" such as marijuana, methamphetamine and cocaine, or may do so during their high school careers.

The Board of School Trustees recognizes that many of our students drive to school and utilize school property to park on. The Board also recognizes that many of our students also participate in school recognized extra-curricular clubs and organizations, as well as the athletic programs of the school. The Board realizes that these opportunities are privileges offered to our students and such participation is not an absolute right. One such condition shall be an agreement by the student to submit to testing for the use of drugs and alcohol if selected in accordance with the procedures listed in this policy.

The random drug-testing program adds an additional dimension to a student's ability to utilize student parking and/or participate in co/extra-curricular student activities already established by the school that guides student conduct. The education and testing program is intended to be a helpful part of the overall physical and mental education and conditioning programs of Alexandria Community Schools. Drug use is inconsistent with driver safety, participation in co/extra curricular clubs, athletic programs, and with the purpose of the school in general. The program, therefore, includes appropriate procedures for dealing with such problems in areas which the schools have been given legal parameters to implement such policies.

PROGRAM IMPLEMENTATION

This drug-testing program shall apply to all Alexandria-Monroe High School students in grade 9-12 who:

- a. Utilize a student parking permit necessary to park on school property.
- b. Try out and/or become members of a school co/extra-curricular club, group or organization that has a board approved sponsor, supervisor and/or coach.
- c. Try out or become members of a high school interscholastic athletic team.

The operation of a vehicle while under the influence of drugs and/or alcohol accounts for thousands of deaths on our roads and highways each year. The safe operation of a motor vehicle is paramount to health and safety of our students, staff and community members. Students who choose to drive to school have the convenience and privilege of parking their vehicle on school property after securing a parking permit. In order to park on school property, a student must apply for and display a parking permit.

A student driver who applies for a parking permit agrees to participate in the testing program.

Students who participate in co/extra-curricular and athletic programs are respected and admired by a large segment of the student body of each school. In order to participate in our school's co/extracurricular and/or athletic programs, students are expected to hold themselves as good examples of citizenship, which includes avoiding drug and alcohol usage. It has been widely recognized that drug and alcohol usage can cause serious physical, mental, and emotional harm. A student who uses drugs can be a danger to him or herself and others. The use of such substances is not only a danger to the individual user, but can significantly impair the positive benefits to be received by all participants in these programs.

The use of alcohol and drugs is incompatible with the goals of and participation in all student programs and activities at Alexandria Community Schools. Such usage has long been forbidden by school rules and policies.

In addition to random selection, the school will also test any student if there is a request from the parent or guardian. Any parent or guardian requesting a test be done will be required to sign a consent form if the student is not an athlete, student participant of co/extra-curricular activities and/or student driver. If the parent or guardian requests that the test be administered during a regularly scheduled testing date, the test will be free of charge. If the parent/ guardian requests that the test be conducted as soon as possible, the parent/guardian

will be responsible for all costs incurred. A positive test will result in the penalty listed in the student handbook for possession.

This program will not affect the policies, practices, or rights of the School Corporation in dealing with drug or alcohol possession or use where reasonable cause to believe drug or alcohol abuse is presently occurring.

1. Each student and parent/guardian will receive a copy of this program. Upon request, this program shall be explained and an educational presentation shall be made in order to acquaint these students with the harmful consequences of substance abuse. This information may be in the form of a written or visual presentation.
2. Each prospective participant shall receive a consent form, a copy of which is attached hereto, which shall be dated and signed by the student and by a custodial parent or guardian before the issuance of a parking permit and/or a student participant is allowed to practice or participate in any activity of the team, club and/or organization. (Except for August and September when consent forms may be received by the school after the beginning of practices or organizational meetings.) The consent shall be to provide, at any time requested, a urine sample to be tested for drugs and alcohol. Any student and/or parent/guardian refusing to sign a consent form will cause the student to be ineligible to park on school property and/or participate until the form is signed. The consent form shall be in effect throughout all the years of participation unless revoked in writing by the student driver, athlete, parent and/or guardian.
3. Selections may occur at any time during the calendar year. One cross-referenced list of names and numbers will be maintained. The list shall be maintained by the building principal and shall be secured in the school safe until the designated day of testing. The school nurse shall use this list to assist in the verification of identification during the collection of samples. The numbers shall be selected by the testing company in random fashion without the knowledge of individual names. The school will match the pre-assigned numbers with the names of those to be testing.
4. The day of testing the nurse/designee will issue passes to the students whose numbers were drawn. The students will report directly to the office. If the student is absent and the absence is unexcused, the student will be ineligible for parking and/or participation until the next testing date and will be automatically tested on that date. If the absence is excused, the student may continue to park and/or participate but will be automatically tested on the next date. If the participant has a second unexcused absence on the second test date, he/she will then be declared ineligible for parking/participation until the next date at which time the student will be tested.
5. The collection of the samples will be done in a non-offensive manner which insures the integrity of the sample. The school official or designee who supervises the sample collection will not physically observe the giving of the sample which will take place in a secured and private enclosure. Recordation of appropriate information to insure a proper chain of custody record will begin at the time the sample is collected, including verification signatures by both the student and the supervising official. The samples will then be turned over to the testing laboratory, and each sample will be tested for alcohol, unlawful drugs as listed in the athletic profile of the laboratory. The laboratory may also test for performance enhancing drugs known as steroids. Testing shall be done by a competent and accredited laboratory selected by the Alexandria Community Schools.
6. The laboratory shall report the results of the test only to the Principal who is responsible for contacting the student and his/her parents or guardian regarding the test results. If the test is positive, the principal will confer with the testing lab to determine if there is any medical explanation for the substance to be in the student. If the participant is taking any over-the-counter or prescription medication which may contribute to a positive test result, it would be in the student's best interest for that student and the student's parent/guardian to inform the

school nurse of this fact at the time of the taking of the urine sample. If the principal verifies that there is no medical reason for the positive result, he/she will contact the student and the student's parent/guardian.

7. All test results shall be kept by the principal. The parents/guardians of a student who tests negative will be notified by mail within five (5) days of the receipt of the information. Positive test results without medical explanation shall be made known only to the principal. The principal will contact the student, and the student's parent/guardian. Positive test notification will be made within twenty-four hours of receipt of results. The principal shall maintain a record of occurrences for the duration of the student's school career. The principal may release information to the athletic director, coach or sponsor if necessary. All information will be treated with the utmost discretion and confidence. Any breach of information will be investigated by the Superintendent and School Board. These records shall be destroyed at the beginning of the school year immediately following a student's graduation. However, it is required that the receiving school be notified if a student has been declared ineligible for athletic participation in accordance with IHSAA
8. If any participant's sample tested positive at the laboratory the student and the student's parents/guardians shall be advised of the test results and told which type of substance was found. If the student or the student's parents/guardians desire, they may request to have the remaining portion of the sample, if any, re-analyzed by any accredited testing facility of their choice. Such request must be received by the principal within twenty-four hours of the first notification. The student and student's parents/guardians shall bear the responsibility and the cost of the testing done at their request. The school shall only be responsible for initial testing, analysis, and/or any other test required by the school through this program.
9. The testing results of any student shall not be made known to any school official other than as above stated, and no student shall be expelled, suspended, or disciplined as the result of any positive test obtained through a testing program other than as stated herein.

DRESS AND PERSONAL APPEARANCE

Students and parents are expected to use good judgment in making sure clothing is neat, clean and appropriate.

1. Footwear shall be worn at all times by students for health and safety reasons. Shoes with laces must be tied securely. Slippers and shoes with wheels are not allowed.
2. Coats, jackets, and bags must remain in the student's locker or designated area unless given permission by the principal.
3. Hats, hoods, bandanas, and sunglasses are not to be worn inside the building unless approved by the principal. This is a school safety issue. This can result in a write up/suspension/termination for employees and a write up/suspension/expulsion for students if this practice is repeated
4. Shirts, sweatshirts, t-shirts, blouses displaying slogans, sayings, or messages that are profane, vulgar, obscene, lewd, contain suggestive words, phrases, or pictures (including drug, tobacco, and/or alcohol items) are not permitted.

6. Students are responsible for appropriate personal hygiene.
7. Where applicable, safety glasses are to be worn by all students at all times in classes where there could be any hazard to the eyes. If the instructor feels that the hair or clothing is endangering the safety of the operator of machinery, the teacher may require that a restrictive device be worn.
8. Caps, insignia, emblems, shirts, and/or other such clothing or personal possessions identified and associated with gangs will not be worn in school, on school premises, or at school related activities.
9. Wallet chains, spiked or edged jewelry may not be worn.

10. Make-up that is deemed disruptive to the educational process shall not be worn.

11. Clothing deemed to be disruptive to the educational process will be considered in violation of the dress code.

Wearing of such items after an official warning may result in assignment to in-school detention, suspension or expulsion from school in accordance with statutory due process procedures.

FIGHTING

Fighting is prohibited. Students intentionally causing or attempting to cause physical injury or intentionally behaving in such a way as could reasonably cause physical injury to any person on school property during, immediately before, or immediately after school hours; on school property when the school is being used by a student group; or off school grounds at a school activity, function, or event, shall be disciplined by suspension or expulsion from school. The Alexandria Police Department will be called, if the administration deems that the incident rises to the level of battery or disorderly conduct.

CHEATING/PLAGIARISM

Students who cheat, and students who allow others to cheat off of their work, are subject to receiving zeros on the assignment and a possible suspension from school. Teachers will develop classroom rules and apply penalties regarding plagiarism.

STUDENT AND EMPLOYEE INTERNET USE AND GUIDELINES

No person shall be permitted to use any school computer for Internet access without a Student and Employee Internet Use Agreement form signed and on file.

SCHOOL BUS DISCIPLINE POLICY

When school children are being transported on a school bus, they are under the supervision, direction and control of the school bus driver, and are subject to disciplinary measures by the bus driver and the school administration. Transportation is a privilege extended to the students of the Alexandria Community School Corporation. Students who cannot abide by the rules and regulations can be denied that privilege of riding the bus. Students who violate school rules while on the school bus are also subject to the same disciplinary consequences they would receive if the violation occurred in the school building or at a school event.

DISCIPLINE CONSEQUENCES

Students who violate school rules may be assigned the following consequences: After School Detention, Before School Detention, Saturday School, Community Service, In-School Detention, Out School Suspension, Expulsion.

PESTICIDE NOTIFICATION REGISTRY

Indiana Law requires the establishment of a notification registry for parents who would like to stay informed about the application of pesticides on school property. If you would like to be notified when pesticides are to be applied at school and what type of pesticides are being applied, please contact your building principal or the school corporation's maintenance department.

ASBESTOS

In compliance with the US Environmental Protection Agency (EPA) Asbestos Hazards Emergency Response Act (AHERA), Alexandria Community School Corporation has conducted inspections in each of our school buildings for the purpose of identifying building materials containing asbestos. The EPA requires school districts to perform periodic surveillances of asbestos materials every six months. The EPA requires school districts to have asbestos materials re-inspected by an accredited asbestos inspector or management planner every three years. The results of the periodic surveillances and re-inspections are on file in our Maintenance Department.

ALEXANDRIA-MONROE HIGH SCHOOL ATHLETIC CODE AND TRAINING ROOM RULES

Character Statement:

The athletic program at Alexandria-Monroe High School has been established as an important part of the total educational program where respect, self-discipline, and cooperation are fostered. These values are founded in an enduring and rich tradition of excellence. An athlete at AMHS is expected to build upon the tradition of excellence in representation of our school and community, and to accept the responsibility that is imposed with it. To that purpose, this athletic code has been adopted. The Athletic Code applies to all individuals from the time a student enters high school until the athlete graduates. The Athletic Code shall run concurrent with the school policy concerning drugs, alcohol, and tobacco and does not take precedence over any phase of the school policy.
